

Executive Profile

Tony Mazzullo

President and Chief Executive Officer

Tony Mazzullo was appointed President and CEO of Veramark in January, 2008 and quickly rallied company resources behind a new strategic vision aligned with the emerging communications intelligence market. Tony is a seasoned veteran of the software consulting business and highly accomplished at delivering value in the arena of process improvement. For 25 years, he has demonstrated the ability to drive growth and profitability in both start-up and established corporations. He brings to his role at Veramark a range of skills in leading strategy, business development, sales, marketing, product development, professional services, operations and finance.

Under Tony's leadership, Veramark is expanding its TEM footprint and leading the market transition to Information Technology Financial Management (ITFM), which applies expense management methods and business intelligence tools to unified communications. As unified communications continues to propagate across corporate, government and educational markets, so will the demand for solutions that capture communications data from diverse systems and translate it into actionable information. Veramark is poised to meet this demand.

Tony was previously Senior Vice President of Operations at one of the nation's leading, publicly held software and professional services companies, where he had responsibility for revenue and profitability for consulting services and for the delivery and support of a line of eProcurement software products. Tony established the consulting services business as a profitable and fast growing segment of the business.

In 1999, Tony established and served as President and CEO of eTrack Solutions, a professional services company that helped organizations streamline operations and optimally apply software applications to their business. After eTrack Solutions was sold in 2001 to Manchester Technologies, Tony continued to serve as President of the Manchester Software Division. Under Tony's leadership, the division grew to become an important strategic component of the software products and related services offered by Manchester.

A Rochester, New York native, Tony holds a BS in Electrical Engineering from Cornell University and an MBA in Accounting/Finance from the University of Rochester Simon School of Business.
